CMCC Doc. No. 151x5.893

Copy 1 of 5

Page 1 of 1

Dear Dan:

The enclosed proposal recommends certain changes to FOG's Equipment List I, Fly-Away Kit for System 1, Revision A and Revision C. As you know, one (1) Revision A and three (3) Revision Cs of this list are presently on order. This proposal recommends the addition to the Revision A list of the items necessary to support the transistorized information amplifier and power supply. This Revision A list becomes Revision D when these items are included. This proposal also recommends the reinstatement of certain fabricated assemblies to the three Revision C lists which, although previously deleted, have now proved necessary for adequate support of System 1. When these items are included, this list becomes Revision E.

These proposed changes are the results of field consumption and requirements as requested by Bill D. in his correspondence to us.

Itemized lists of parts added are included and are the basis for the enclosed cost estimates. The estimated cost of revising the Revision A list to a Revision D list is \$1,139.28; the fixed fee computed at 8.25% on that amount is \$93.99, making the total estimated cost including fee \$1,233.27. The estimated cost of revising the three (3) Revision C lists to Revision E lists is \$8,128.50; the fixed fee computed at 8.25% on that amount is \$670.59, bringing the total estimated cost including fee to \$8,799.09 for three lists. We will not begin procurement of these additional items until we receive authorization from you.

Sincerely,

  
Dean

## Enclosures:

Copies 1 - 3 of 5 of the  
following documents:

CMCC Doc. No. 1132x5.182

CMCC Doc. No. 1132x5.183

3 Copies each of the following:
